Report on my trip to Beijing and Shanghai

I was invited by the convener of economics, Professor Kamhon Kan, to visit Beijing and Shanghai. The team of the visit consists of three members--Professors Shin-Kun Peng and Kamhon Kan from Academia Sinica and me. The team was led by Professor Kan.

The purpose of the visit is to promote Academia Economic Papers and Taiwan Economic Review, the two top economics journals in Taiwan.

The trip was very successful. We visited two major universities and one top research institute in Beijing and two top universities in Shanghai. All the universities we visited have agreed to help us promote the journals, but in different degrees. For example, the Chao-Tung University in Shanghai has agreed to display the journals in their library.

Please refer to Professor Kan's report for more detailed itinerary and accomplishment of the visit.
